

Redesign the Misleading Colored Chart

R.No: 32 Reg. No: 1924260143 Name: S.Gopikha

Each chart below uses color in a misleading or confusing way. For each one, answer the three questions in your own words.

Chart 1

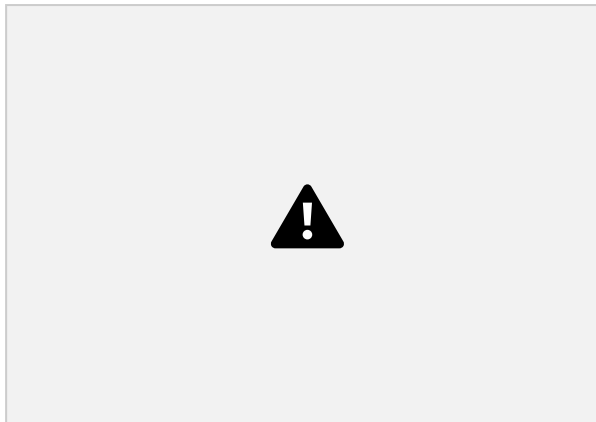

1. What is this chart trying to show?

2. What's wrong with the color choice?

3. Propose a better color scheme (describe it in words):

Chart 2

1. What is this chart trying to show?

2. What's wrong with the color choice?

3. Propose a better color scheme (describe it in words):

SESSION — ACTIVITY (20 MIN) • STUDENT HANDOUT • SLOT D

Chart 1

1. What is this chart trying to show?

It is trying to compare the values of different categories using different colors.

2. What's wrong with the color choice?

The colors are too bright or inconsistent, which makes the chart confusing and may give the impression that some categories are more important than others.

3. Propose a better color scheme (describe it in words):

Use one consistent color for all categories, or use a simple set of similar, easily distinguishable colors. Avoid very bright or distracting colors.

Chart 2

1. What is this chart trying to show?

It is trying to show differences or changes in values between different groups or categories.

2. What's wrong with the color choice?

The colors do not clearly represent the data and may be difficult to distinguish. Some colors may also suggest meanings that are not intended.

3. Propose a better color scheme (describe it in words):

Use a clear and color-blind-friendly palette. Use shades of one color for related values, and use contrasting colors only when showing meaningful differences.
